What is Twitter?

Twitter is used primarily as a method of communication made up of 140 characters called a 'Tweet'. Tweets tend to reference people, places, and/or activities to which the said referee can respond. Tweeters either directly reference another person or broadcast information to which others can reply and respond.

Twitter users are able to follow or be followed. To follow somebody / something ensures that all of their activity and comments appear in the followers news feed. The obvious benefit of having followers is that the information you broadcast is instantly distributed into their news feed. Users can also private message each other when they don't want conversations to appear. @FriskneyPrimary will not enter into private discussions with others.
